AN ABUNDANCE OF SARCASM.

Things Old and New Are Put Into Falls Into a Humorous Vein at The Expense of the Dem-

SAN FRANCISCO, August 25 .- Just prior to his departure for the East last necessary to maneuved for positions ity," is declared the most important evening William Randolph Hearst addressed the following communication the convention of that party in Terri- to the Iroquois Association in connection with the resignation from that body of Democratic statemen:

"August 24, 190s .- To the Iroquois Association, San Francisco, Cal.—Gentlemen: I received yur letter with both pleasure and surprise. I was surprised to know that Mr. Bogard was sending \$4 dues to your organization, but pleased to learn of it, as I am exceedingly ready to stop that. was pleased and surprised, too, to learn that the Iroquois Club was still in existence, for I thought that it had died the death and had been peacefully buried along with the last remnants

"But since the Iroquois Club still in a way exists, I am glad to resign from letter seems sufficient reason for me.

"You imply that I am not a Democrat, and I strongly suspect that I am not, according to the Democratic standards of today. I worked hard for the Democratic party at one time, and contributed many thousands of \$4 checks, and cheerfully suffered much abuse and much injury for the Demoeratic party; but I believed in it then, and I don't now.

"You imply, furthermore, that you are Democrats, and I cannot help wondering what kind of Democrats you think you are. Are you 1892 Democrats, or 1896 Democrats, or 1900 Democrats, or 1904 Democrats, or 1908 Democrats? Are you Cleveland Democrats, believing in the tariff reform that we didn't get, and the military suppression of labor unions that we did get? Are you Parker Democrats, supporting the trusts if they contribute and opposing them if they don't? Are you Bryan Democrats, believing in free silver sometimes and in Govern-ment ownership sometimes, and in the initiative and referendum sometimes? And if you are Bryan Democrats and believe in these things, do you also believe in a Bryan platform that contains none of these things? tains none of these things?

"Dear friends and brothers of the Iroquois Club, you all remember how the Democracy of free silver was taught you and how you got intensely excited over it, and cheered for it and marched for it, and then were informed eracy after all, but that public ownership was. Then you remember how you threw your hats in the air over public ownership and worked up an almost hysterical enthusiasm for it, and were informed that this wasn't true Democracy either, but that the initiative and referendum were. Then you came nobly to the front again and affirmed undying devotion to the everlasting principles of the initiative and referendum; but now you have a platform in which there is no free silver, in which there is no public ownership, in which there is no initiative or referendum, and tsill you are informed by the old Dr. Gringle of Democracy that 8nly that platform with the owner's trademark pasted on the front and the owner's name blown in the bottle is genuine Democracy, and that if you don't subscribe to that you will be read out of the Democratic party.

"Friends and ex-brothers of the Iroquois Club, there is no Democratic party; there is only a Bryan party, and the followers of that party don't know when they go to bed at night what | they will be called upon to believe when they wake up in the morning.

"Once there was a man who had an conceneration of the control of t old carving knife which he said had been handed down to him from his grandfather. A friend said to him, 'It looks rather new. Haven't you ever done anything with it?' And the man said, 'Oh, I've had the blade changed once or twice and the handle renewed a couple of times, but otherwise it is just the same knife my grandfather had.

"Mr. Bryan tells us that his variable doctrines are the Democracy of our fathers, but I say that both the blade and the handle have been changed so often that there is no recognizing the original principles.

"Once again, there was a farmer who had a balky mule, and he couldn't make the mule go. A stranger came along and offered to help, and the farmer told him to go right ahead. The stranger had a bottle of turpentine, and he opened the mule's mouth and pushed back his head and poured about half of the bottle into the mule's stomach.
